

TRENNSO-TECHNIK Technology Centre – Request of Use

As an indispensable process module between planning and production, we have invested in our company's own state-of-the-art technology centre. Here, we can test all envisaged solutions for feasibility in terms of separation technology.

The knowledge gained from this serves as a basis for the planning and execution of custom plants and guarantees the customer reliability for optimum process engineering.

We shall be pleased to carry out tests with your product in our technology centre.

Type of test:

- Processing of bulk materials Processing of recycling materials Processing of foodstuff

Customer:

Company name: _____

VAT ID number: _____

Street: _____

Country, Postal code,
City: _____

Contact person: _____

Phone: _____

E-mail: _____

Details of the test material:

Description of the material: _____

Grain size: _____

mm

Humidity: _____

%

contained fractions: _____

specific weight
per fraction: _____

tons
kg
l

Pre-treatment (e.g. which
shredding technology was used) _____

Objective:

(please describe as detailed as possible)

Dates:

(subject to our binding confirmation)

Delivery: _____ Test: _____

Customer participates in test: yes, with _____ persons no

Please ensure appropriate clothing - any necessary protective equipment is provided on loan by TRENNSO-TECHNIK.

Delivery of test material:

Times for acceptance of goods:

Monday - Thursday 7.00 am - 3.30 pm
Friday 7.00 am - 11.45 am

Delivery: Forwarding Agent Other _____ Quantity of delivery: _____ tons / kg / l

Remarks:

TRENNSO-TECHNIK assumes no liability for products or processes. All information and findings are treated confidentially. Any transfer of the test documentation to third parties requires the prior consent of TRENNSO-TECHNIK.

The test material must be properly and securely packed. BigBags must be delivered standing on pallets (max. height 1.40 m). Please deliver the material only shortly before the beginning of the test(s).

TRENNSO-TECHNIK does not pay any costs for transport, disposal, storage and return/further transport of the test material. TRENNSO-TECHNIK reserves the right to dispose of the material at the expense of the customer after the test or in the event that the test does not take place, if the material is not collected or disposed of by the customer within 4 weeks after the test.

With your signature you confirm that the material does not present any risk (explosion, contamination) and that you have taken note of the above remarks.
